About us

Hepscoff Garden Café is a partnership between Northumberland County Council and Blyth Star Catering Services. Northumberland County Council has a reputation for providing quality services, supports and opportunities for people with disabilities. Blyth Star Catering Services is part of Blyth Star Enterprises, a local charity established in 1987 by families and carers, supporting people with mental health issues, learning and other disabilities to live and work within their local community. Providing a range of supports based upon the principles of Social Role Valorisation, Community Rehabilitation and Recovery including constructive daytime and evening activities, employment, training and living support services.

This partnership will enable us to provide people with mental health issues or learning disabilities who wish to work in the catering field, an opportunity to gain valuable work experience in a real working environment whilst receiving quality training and obtaining formal qualifications. In addition it will promote produce from local suppliers and businesses by using mainly locally grown and sourced ingredients for our food whilst promoting items produced by services employing or supporting people with mental health issues or learning disabilities.
